## WHAT WE DO AT GUSC SOCCER CAMPS.

We simply create the environment for the player to enjoy the fundamentals of soccer. We do not offer league games as this is counter productive during week-long intensive training and development, but instead employ some very unique game methods instead. We believe that our coaches are first and foremost role models and teachers. Good coaching is not just about producing winning teams; it's about asking every day before practice or a game: "Is what we are planning to do today in the best interest of kids?" Our coaches create an environment that allows each player on the team to become the best possible soccer player, showing them how their efforts will provide maximum team contributions.

### Our 3 Principles

**1** Our foot skills methods teach individual skills and small-sided game tactics. We teach ball possession while continuing to expand on the player's fundamental skill set. Preparation, knowing the game and the proper progressions to various training topics, will provide the kids with numerous opportunities to explore and discover their full potential through active participation.

**2** The competitive side of soccer begins to be taught, but never to the detriment of enjoyment and development. Our belief is that winning will come in its own time, and only as a result of your child's proper development.

**3** The competitive enjoyment of soccer comes alive in full bloom. Players' development increases their desire to achieve and dedicate themselves to training and growing on and off the field. Our kids learn lifelong lessons that can be revealed by participating in a competitive sport.

## Fun While Learning

Our mission is to develop the heart, mind, and body of our young athletes, by developing their soccer skills and knowledge and by providing coaches who model and teach an understanding of how to play and succeed in the game of soccer, as well as in the game of life.

## SUMMER CAMP PROGRAM

### GUSC Pro Soccer Camp Full and Half Day:

June 15-19 and July 13-17 8:30-Noon for Half Day and  
8:30-3:30 for Full Day

### Ages 7 and Older

This camp is recommended for those players looking to improve their tactical/technical aspects of the game to higher level.

### Challenge/Classic Camp:

July 27 - July 30 6:00 p.m. - 8:00 p.m.

### Ages 8 and Older

The Challenge/Classic camp is open to any player from any club who currently plays challenge or classic level soccer. The camp will focus on advance technical and tactical aspects of the game.

### ALL CAMPS WILL BE HELD AT FORESTVIEW HIGH

### What's the right age to get involved with camp?

You can start at any age, but the sooner the better. Our programs are designed to teach and build upon the fundamental skills, which are absolutely necessities to fully enjoy and compete in this sport known as "the beautiful game." These skills are best learned by repetition and require instruction to properly master.

### What should I expect from the GUSC program?

We dedicate ourselves to these young athletes to help them achieve their dreams, and believe that they will be (and are) winners no matter what the score of the game. We teach using 3 priorities.

1. **Enjoyment** - We want players to develop a passion for soccer. If it's not fun, players will lose that passion. By applying positive reinforcement to develop confidence, and motivation techniques that creates a burning desire to improve, players will learn to always think about how they can be a better player.
2. **Development** - The style of soccer that we strive to teach is an indirect style of soccer by keeping possession of the ball. This requires the player to use skill and make intelligent decisions on and off the ball.
3. **Competitiveness** - During practice games, we go out to win and perform at the most excellent effort possible, but not to the detriment of the first two priorities. As long as 100% is given to achieve the goal for that particular game or practice, the player should be proud of his performance regardless of the result.
